● Enhanced with proprietary & innovative SHIELD4MAX™ technology which was built in the planks with 100% waterproof, unparalleled scratch-shield, stain-shield and bacteria-shield performance.

● Luxury extra-long and ultra-wide planks with painted bevels and Embossed-In-Register technology which intensifies the depth, texture and authentic wood look of the flooring.

● Ultra thick core and exceptional dense sound pad enable the installed planks with increased sound-proof performance.

● Specially designed to endure heavy everyday foot traffic with extreme performance, most recommended for high-traffic commercial spaces incl. corporate offices, banks, hotels and other commercial buildings.

#### ● Pressed Bevels for Realistic Aesthetics

A revolutionary technique that presses the edges of each plank uniformly to enhance realism, depth and dimension, presenting a more authentic wood-look and luxurious appearance.

#### ● Comfortable Underfoot

The 8mm thickness and three-layer engineered composite structure provide a highly comfortable, cushioned feel underfoot, along with added sound insulation, which is often a desirable feature in high-end residential spaces.

#### ● Excellent Sound Absorption

The thickness and composite structure of PU collection, along with added padding, provide effective sound insulation, reducing noise in multi-level buildings and busy areas.

#### ● Pet and Kid Friendly

Certified by GreenGuardGold and FloorScore Indoor Air Quality (free of formaldehyde, phthalates, VOC and heavy metals), along with durability, scratch resistance, and waterproof features make it well-suited for households with pets and children, as it withstands spills, claws, and play.

#### ● WATER RESISTANT

Constructed with premium black spruce core technology, enhanced with denser, higher water-resistant performance up to 72 hrs with moisture and water spills.

#### ● SUPER SCRATCH FREE

Proprietary superior scratch free technology provides you with the most desirable choice of water defense and surface guard flooring style.

#### ● LARGE INSTALLATIONS

HomeLike strikes for a revolutionary fashion forward flooring solution enabling the collection 55% more dimensionally stable than standard laminate core, which allows you to install in rooms as large as 4,000 square feet without use of transition or expansion moldings, even through doorways.

#### ● EASY CARE

Enlightened by it's high water resistance performance, you can super easily wet mop and clean the floor with all purposes cleaners!

#### ● FAMILY FRIENDLY

Both CA-CARB Phase II certified and FloorScore Indoor Air Quality certified, protecting your family members to breathe freshly in everyday life.

# T-molding

T-molding

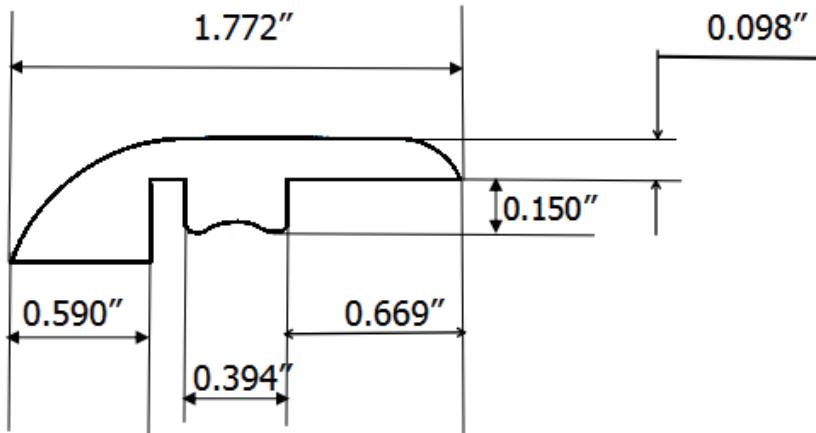

**T-molding** serves to cover the expansion gaps needed in a floating floor installation by bridging the space between two even surfaces. The low profile height and width bring a polished look to the job. They are highly wear resistant and 100% waterproof. The profile shown above is compatible with the AR line. Dimensions may vary to accommodate planks with different specifications.

# Reducer

Reducer

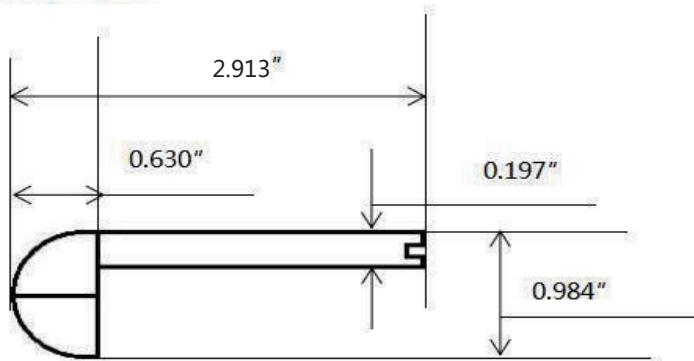

**Reducer** is the solution in locations where flooring of different heights meet together and a gentle slope is needed to bridge the two surfaces. 100% waterproof PVC construction. The profile shown above is compatible with the AR line. Dimensions may vary to accommodate planks with different specifications.

# Stair Nose

Flush Stair Nose:

**Stair Nose** is 100% waterproof, can be installed as flush mounted. This versatile finished edge stair nose provides a solution for most staircase applications. The surface coating is made from reinforced polyurethane so the stairs continue to be eye catching for years to come. The profile shown above is compatible with the AR line. Dimensions may vary to accommodate planks with different specifications.

## Full Step Stair Tread

Available for GV/SU/PM/PA/AR/AA/CC/SC, and PR wood emboss

**Full Step Stair Tread** is an innovative, all-in-one integrated stair tread and nose, crafted from actual rigid vinyl planks. It features a straightforward, user-friendly installation, completing your stairs as a full step while providing a perfect match & natural look to the original flooring material.

Full Step Stair Tread is available now for GV/SU/PM/PA/AR/AA/CC/SC and PR wood emboss.

HomeLike is a factory-owned brand with manufacturing operations in both the United States and overseas.

All HomeLike products are crafted in our self-owned facilities, ensuring comprehensive quality control, vertical operational efficiency, and a strong commitment to sustainability throughout the production processes.

Headquartered in Adairsville, Georgia, HomeLike's mission is to partner with local distributors and dealers to deliver premium vinyl and laminate flooring to American consumers at affordable prices.

By the end of 2024, HomeLike has established a robust network of over 500 active distribution partners, spanning the nation from Montana to Florida, from Maine to California.

These partners are supported by a highly dedicated local customer service team, built on the core values of Integrity and Dedication to create value for customers.
